EVO HTML to PDF Converter for .Net

EVO HTML to PDF Converter for .NET combines the powerful printer friendly PDF format with the flexibility of the HTML format into a modern tool for creating nicely formatted and easily maintainable PDF reports and documents. The built-in support for converting SVG helps to create high quality vector graphics and text rendering effects in PDF.

EVO HTML to PDF Converter for .NET has full support for HTML tags and CSS, SVG, page breaks control with CSS styles, repeating HTML table header on each PDF page, live URLs and internal links in PDF, automatically generated bookmarks, HTML in the headers and footers.

It also offers advanced support for HTML5 features like CSS3, inline SVG, Canvas and Web Fonts.

An important feature is the support for various types of authentication like Integrated Windows Authentication, Forms Authentication or custom login.

The HTML to PDF Converter is not using any third party tools and no installations or special settings are necessary on the server in order to get it working. The same assembly works both in 32-bit and 64-bit environments and xcopy deployment on the server is supported.

The library was designed and tested to work reliably in multithreaded environments and in high traffic websites.

We offer full C# and VB.NET samples for ASP.NET and Windows Forms the product package.
